SUMMARY

Aspiring software developer with a passion for creating intuitive and efficient web applications. Seeking a full time opportunity to contribute my technical skills and gain practical experience in a dynamic team environment.

EDUCATION

Bachelor of Science in Computer Science | 2015–2020 (Incomplete)

Mindanao State University – Iligan Institute of Technology

PROJECTS

Savory Point | Next.js, TailwindCSS, Prisma, PostgreSQL

[Source code](#) | [Live demo](#)

- Developed a recipe-sharing platform using Next.js, TailwindCSS, Prisma ORM and PostgreSQL.
- Implemented CRUD operations allowing users to create, update, and delete their posts and built user authentication and profile management (photo upload, profile management and account deletion).
- Adopted a mobile-first design approach with Tailwind CSS and integrated form validation for an intuitive user experience.

Product Request App | React, TanStack Router & Query, Express, Prisma, PostgreSQL

[Source code](#) | [Live demo](#)

- Developed a full-stack product request feedback application using Express for the backend and React for the frontend.
- Implemented key features including CRUD operations, upvoting, and commenting.
- Used TanStack Router for client-side routing and TanStack Query for efficient asynchronous state management.

Invoice App | Next.js, TailwindCSS, SWR, GraphQL, Prisma, PostgreSQL

[Source code](#) | [Live demo](#)

- Developed an invoice management application supporting creation, editing, deletion, and filtering of invoices.
- Integrated GraphQL for efficient API requests and Vercel's SWR for data fetching/caching.
- Used Prisma with PostgreSQL for data storage and retrieval.

SKILLS

Languages: HTML/CSS | JavaScript | TypeScript

Frameworks: React | Next | Node | Express | Prisma | Mongoose

Databases: PostgreSQL (Basic) | MongoDB (Basic)

Tools: Git | VS Code
